Why use Delegate™ or Success™?

- Excellent control of a broad range of insects in a wide range of crops
- Unique mode of action provides smart rotational options
- Works two ways – on contact and by ingestion – for quick knockdown and residual activity

Delegate™

INSECTICIDE

Success™

INSECTICIDE

Group 5

CROPS: Asparagus, basil, Brassica (cole) leafy vegetables, broccoli greenhouse transplants, bulb vegetables, cereals, corn, fruiting vegetables, ginseng, greenhouse vegetables, leafy vegetables, leaves of root vegetables, onions, potatoes, rhubarb, root and tuber vegetables, snap bean, soybeans, sweet corn

Why use Entrust™?

- Trusted and proven insect control for organic operations
- Fast-acting control because it works by both contact and ingestion
- Registered for a broad range of crops and pests

Entrust™
INSECTICIDE

Group 5

CROPS: Asparagus, Brassica (cole) leafy vegetables, broccoli greenhouse transplants, bulb vegetables, ginseng, greenhouse vegetables (lettuce, cucumber, pepper, tomato and eggplant), fruiting vegetables, leafy vegetables, potatoes, root and tuber vegetables, snap beans, sweet corn

Why use Intrepid™?

- Induces premature molt – ovicidal and larvicidal activity
- Safe to beneficials when used according to label directions
- Unique mode of action and a valuable tool in any IPM program

Intrepid™

INSECTICIDE

Group 18

CROPS: Brassica (cole) leafy vegetables, corn (field, sweet, seed, popcorn), cucurbit vegetables, dried beans, edible-podded legume vegetables, fruiting vegetables, leafy vegetables, succulent shelled peas and beans, tuberous and corm vegetables
