

GRAPE

PEST TIMING CALENDAR

Corteva Agriscience™ offers an outstanding lineup of customer-focused products for grape growers that fit well into an Integrated Pest Management (IPM) program.

Success™

Qalcovia™ active

INSECTICIDE

Success™ insecticide with Qalcovia™ active (spinosad) is a proven insecticide of natural origin. Grape growers can rely on Success for effective control against grape berry moth, thrips and spotted wing drosophila. Success has a minimal impact to the environment, users and beneficial insects when used according to the product label.

Delegate™

Jemvelva™ active

INSECTICIDE

Delegate™ insecticide with Jemvelva™ active (spinetoram) is a naturally-derived product that is fast-acting against spotted wing drosophila with minimal impact on beneficials and the environment. Its unique profile makes it an excellent fit for IPM programs for grape growers.

Prism™ SG

HERBICIDE

Prism™ SG herbicide delivers outstanding post-emergent control of quackgrass, redroot pigweed and annual grasses.

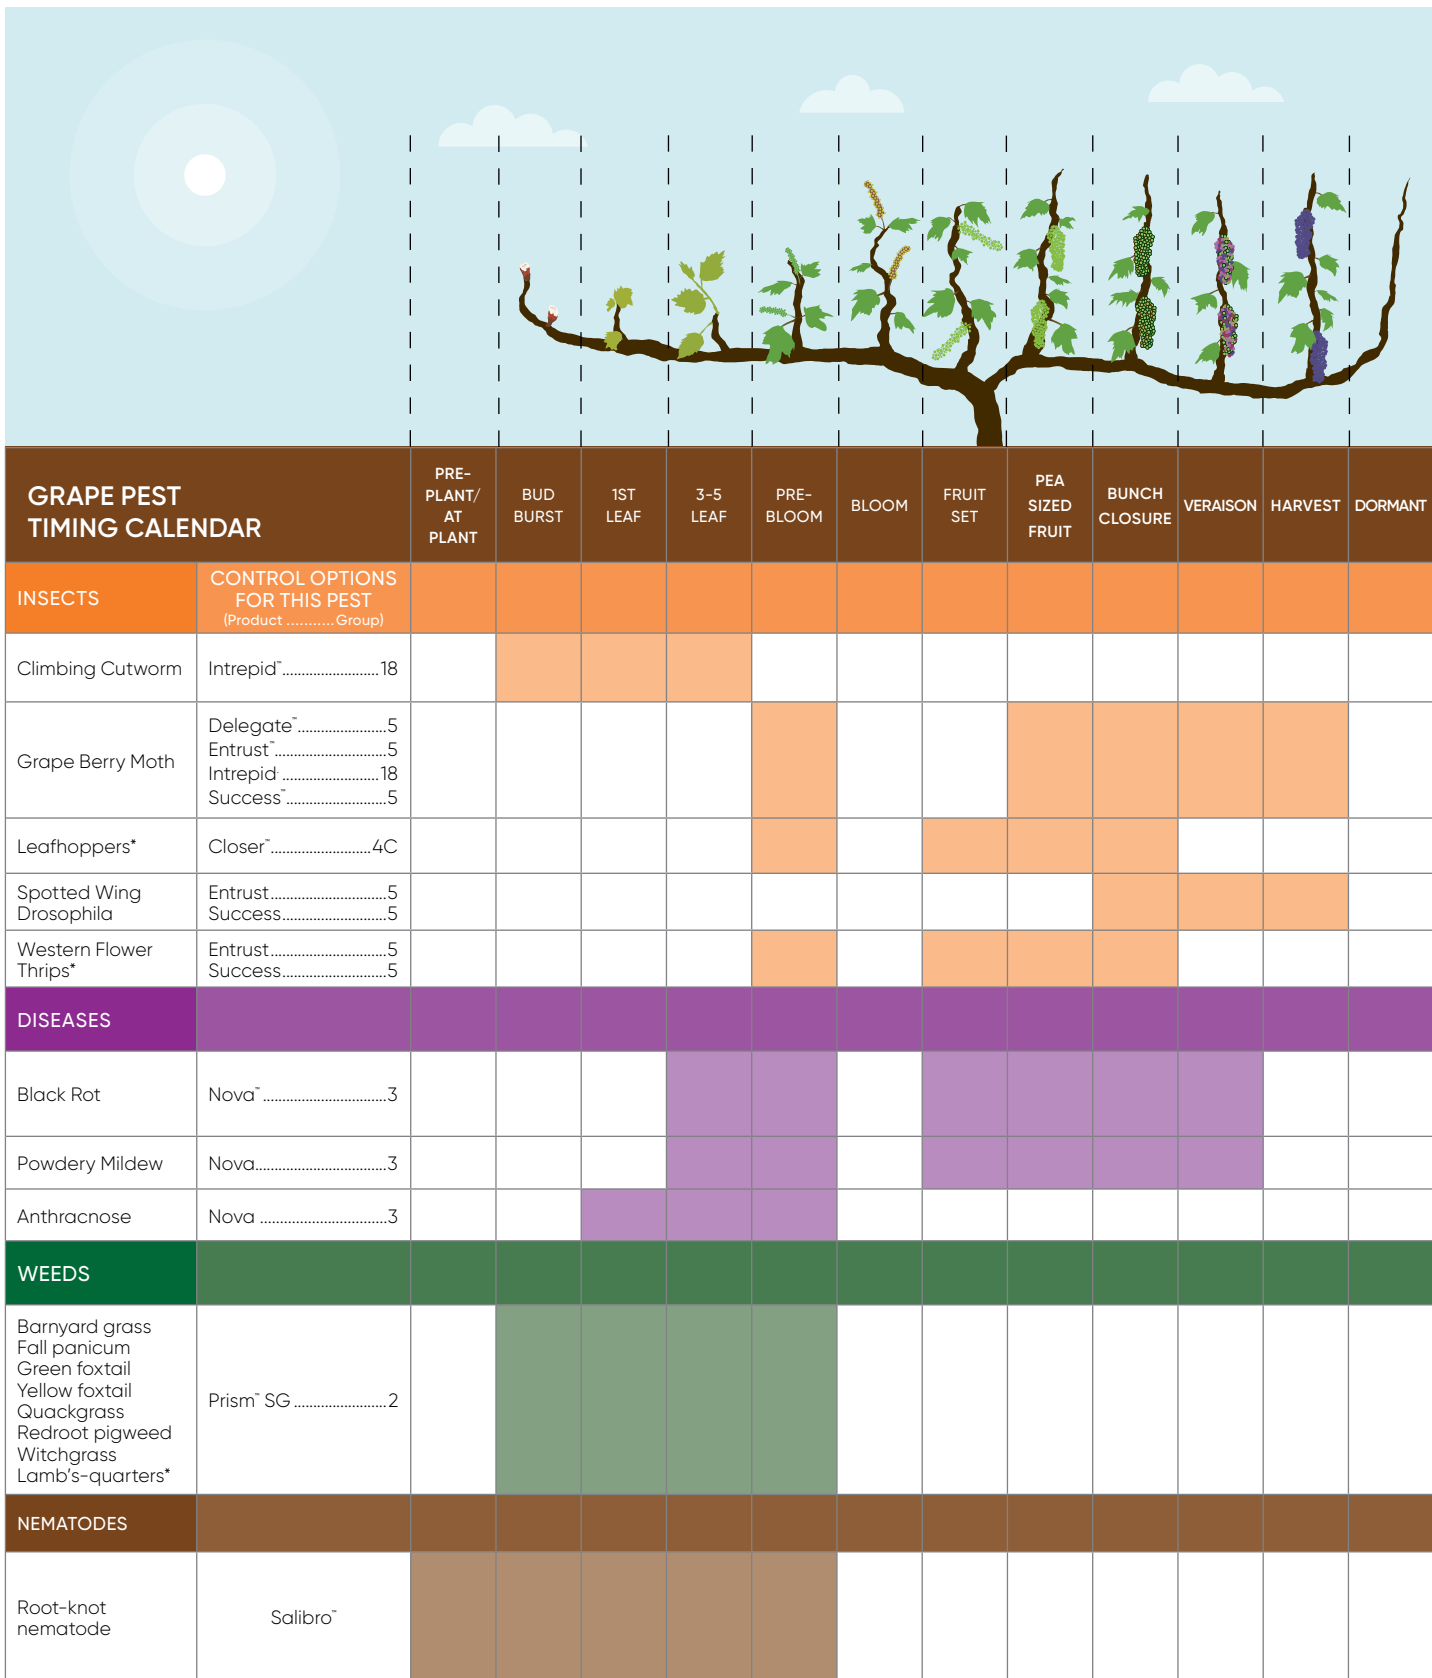

Nova™

FUNGICIDE

Nova™ fungicide is a systemic fungicide providing long-lasting, effective control of powdery mildew and black rot in grapes.

PRE-HARVEST INTERVALS IN GRAPES

Closer™ insecticide with Isoclast™ active	7 days	Delegate™ insecticide	7 days	Entrust™ insecticide with Qalcovia™ active	7 days
