

# GRAPE

## PEST TIMING CALENDAR

Corteva Agriscience™ offers an outstanding lineup of customer-focused products for grape growers. These products fit well into an Integrated Pest Management program without sacrificing performance.

### Success™

Qalcova™ active

#### INSECTICIDE

Success™ insecticide with Qalcova™ active (spinosad) is a proven insecticide of natural origin. Grape growers can rely on Success for effective control against grape berry moth, thrips and spotted wing drosophila. Success has a minimal impact to the environment, users and beneficial insects when used according to the product label.

### Delegate™

Jemvelva™ active

#### INSECTICIDE

Delegate™ insecticide with Jemvelva™ active (spinetoram) is a naturally-derived product that is fast-acting against spotted wing drosophila with minimal impact on beneficials and the environment. Its unique profile makes it an excellent fit for IPM programs for grape growers.

### Prism™ SG

#### HERBICIDE

Prism™ SG herbicide delivers outstanding post-emergent control of quackgrass, redroot pigweed and annual grasses.

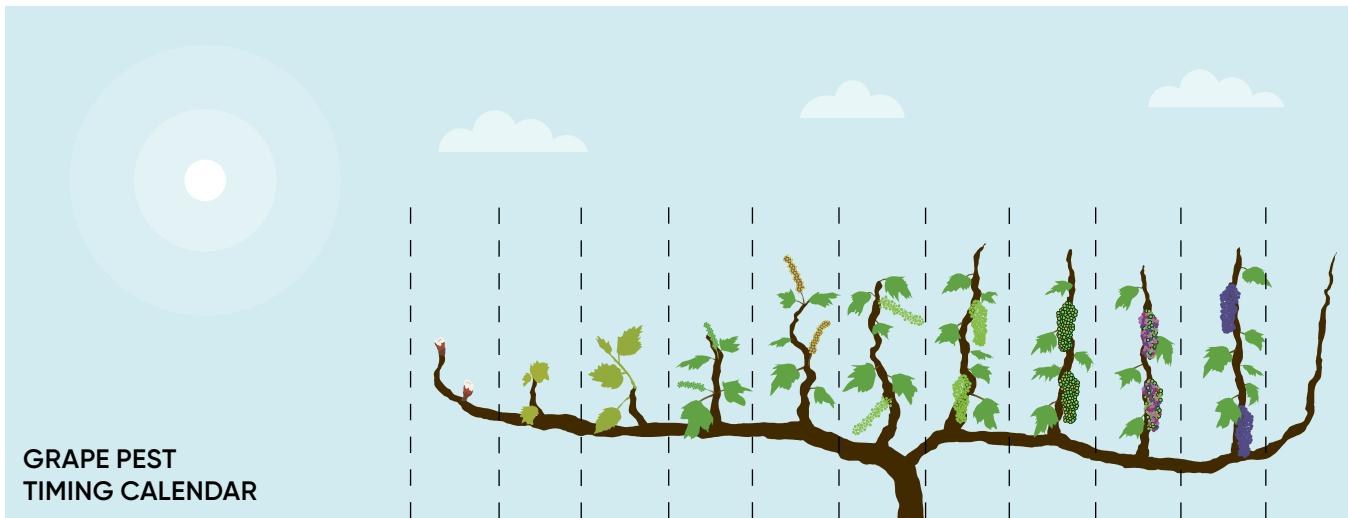

### Nova™

#### FUNGICIDE

Nova™ fungicide is a systemic fungicide providing long-lasting, effective control of powdery mildew and black rot in grapes.

#### PRE-HARVEST INTERVALS IN GRAPES

Closer™ insecticide with Isoclast™ active	7 days	Delegate™ insecticide	7 days	Success™ insecticide	7 days
Nova™ fungicide	14 days	Entrust™ insecticide with Qalcova™ active	7 days	VP480 herbicide	14 days
Dithane™ Rainshield™ fungicide	66 days	Prism™ SG herbicide	21 days	Intrepid™ insecticide	30 days
