

# Ares™ SN

## HERBICIDE

# Technology Sheet

The performance standard in weed control for Clearfield® canola.

- Consistent and reliable post-emergent weed control, including subsequent flushes
- Wide window of application on both crop and weeds
- Superior control of lamb's quarters, wild buckwheat, cleavers and volunteer canola
- User-friendly, liquid formulation

### Active Ingredients

Imazamox – Group 2

Imazapyr – Group 2

### Formulation

Liquid concentrate

### Packaging

#### One case contains

9.8 L jug of Ares® SN herbicide

8.1 L jug of Merge® adjuvant

### Storage

Heated storage is required for Merge adjuvant.

### Crops<sup>1</sup>

**Clearfield** canola

**Clearfield** canola quality *Brassica juncea*

### Staging

2 to 7 leaf, prior to bolting

2 to 7 leaf, prior to bolting

### Weeds controlled and staging

#### Broadleaf – cotyledon to 4 leaf stage (except where indicated)

Chickweed<sup>2</sup>

Cleavers<sup>2</sup> (1 to 4 whorls)

Cow cockle

Green smartweed

Hemp-nettle

Lamb's quarters (cotyledon to 6 leaf)

Redroot pigweed<sup>2</sup>

Round-leaved mallow

Russian thistle

Shepherd's purse<sup>2</sup>

Stinkweed<sup>2</sup>

Stork's bill<sup>2</sup>

Volunteer canola<sup>2,3</sup>

Volunteer tame mustard

Wild buckwheat (cotyledon to 6 leaf)

Wild mustard<sup>2</sup>

#### Grasses – 1 to 6 leaf stage (except where indicated)

Barnyard grass

Green foxtail<sup>2</sup>

Persian dandelion

Spring germinating Japanese brome grass (1 to 4 leaf)

Volunteer barley

Volunteer canary seed

Volunteer durum wheat

Volunteer spring wheat<sup>4</sup>

Volunteer tame oats

Wild oats

Yellow foxtail

<sup>1</sup> Ares™ SN herbicide is registered for use only in the Prairie Provinces. Not for use in the Peace Region of Alberta and British Columbia.

<sup>2</sup> Multiple flushing weeds.

<sup>3</sup> Non-Clearfield canola varieties.

<sup>4</sup> Non-imazamox-tolerant varieties only.

## For more information:

Call the Solutions Center at  
1-800-667-3852

## Application rates

### One case will treat 40 acres.

Ares™ SN herbicide 244 ml/ac (603 ml/ha)

Merge adjuvant<sup>5</sup> 0.5% v/v (e.g. 0.5 L per 100 L spray solution)

### Water volume

Ground application only 20 to 40 L/ac (5 to 10 gal/ac)

<sup>5</sup> Merge adjuvant is required and is included with Ares SN herbicide.

## Mixing order

1. Add 3/4 of clean water needed.
2. Add the required amount of Ares™ SN herbicide.
3. If tank mix is being applied, add required amount of tank-mix partner.
4. Add the required amount of Merge adjuvant.
5. Complete filling with water.

## Application tips

### Rainfastness – 2 hours.

Avoid application immediately before or after frost or during unseasonably cold weather.

Use higher water volume on dense weeds and thicker canopies.

## Pre-harvest interval

60 days after application for **Clearfield** canola

## Rotational crops

### 1 year after application

- Canary seed
- Chickpeas
- Field peas
- Field corn
- **Clearfield** canola
- Clearfield canola quality Brassica juncea
- Spring wheat (including Clearfield wheat)
- Barley
- Lentils (including Clearfield lentils)

### 2 years after application

- Non-**Clearfield** canola
- Durum wheat
- Tame oats
- Flax
- Sunflower

## Tank mixes

### Herbicides for Clearfield canola:

#### Lontrel™ 360<sup>6</sup>

- Canola Stage: 2-6 leaf
- Rate of Tank Mix: 84 ml/ac

#### Lontrel™ XC<sup>6</sup>

- Canola Stage: 2-6 leaf
- Rate of Tank Mix: 51 ml/ac

<sup>6</sup> Registered for **Clearfield** canola only. DO NOT apply to **Clearfield** canola quality Brassica juncea. Always read and follow the label.
